<b>Evaluation of the trainee:</b>	
<p>Konarch was initially involved in the back-end development (PHP) of the 1<sup>st</sup> version of the prototype our web platform, and he continuously demonstrated a proactive approach and creativity in solving the development challenges he encountered. Konarch also played a key role in the design and implementation of the 2<sup>nd</sup> version of the prototype of the platform, including the definition of the database schema and and implementation of the data base, and the integration of 3<sup>rd</sup> party APIs (Gmail, Facebook, payment provider) and communication channels (Facebook messenger, chat).</p> <p>We believe that the internship gave Konarch an opportunity to put both his theoretical &amp; practical knowledge to practice, and he made the most out of the opportunity by taking a proactive approach towards the tasks and challenges encountered. We could also notice that he gained confidence day after day, which also resulted in higher speed and better results over time. It was a pleasure to have Konarch joining our development team in Amsterdam and overall we would assess his internship as being very successful. We would like to take the opportunity to thank KOnarch for all his hard work and efforts, and wish him all the best for his future endeavours.</p>
